Tuesday, February 15, 2022

2:30pm - 3:30pm	**Committees Meet** – Members serving on an OAGITM committee will meet ahead of the conference to interact with their team and assist with conference setup.
3:30pm – 4:30pm	**Vendor Check-In & Exhibit Booth Setup** – Vendors please check-in at the Salal Room located in the lobby of the Longhouse. Don't forget to bring your Booth Bingo game prize! Booth setup can start as soon as your check in is done.
6:00pm - 9:00pm	**Conference Reception -** Members, vendors, and guests welcome to a casual evening of socializing and peer networking to kick off the event. Reception will include hors d'oeuvres and drinks…grab a light dinner before you come! - **Sponsored by ITPartners+**

Wednesday, February 16, 2022

7:30am - 8:30am	**Breakfast & Conference Check-in – Sponsored by Cerium Networks**
8:30am - 8:45am	**Kickoff -** OAGITM Board President, Joe Sadony, will welcome attendees and go over conference logistics, the agenda, and any items needing special mention.
8:45am - 9:30am	**CIS 18: A Roadmap for Security Compliance** – The challenges of preventing and recovering from security incidents are at the forefront of all organizations concerns. TIG provides a holistic and prescriptive look at a risk-based methodology for implementing controls and aligning security to achieve information governance and safe, efficient service delivery. – **TIG**
9:30am - 10:15am	**Tips and Tricks to Survive a Ransomware Incident** - Jerry Nihen will overview key tips and tricks to survive your next ransomware incident along with key insights on protecting your data. The goal of this session is to educate on best backup strategies, techniques to prepare for and advice on how to respond to a ransomware incident. - **Veeam**
10:15am - 10:45am	**Break – Sponsored by BPM's Info@Risk Team** (refreshments in Exhibit Hall)
10:45am - 11:30am	**Future of Work Reinvented** - COVID-19 shattered assumptions about work. Organizations reacted quickly, but now is the time to intentionally reinvent the future of work. Leaders have a unique opportunity to evolve from location-centric to human-centric work design to drive performance and attract and retain top talent. - **Gartner**
11:30am - 12:15pm	**The Rise of Email Compromise and Financial Fraud** – This session will provide a two year look back at the dramatic increase in cases of email compromise that leverage the communication challenges remote work has created. We'll explore how an organization can stave off attacks through email controls, clearer lines of communication and employee training. - **BPM's Info@Risk Team**

12:15pm - 1:15pm	**Lunch – Sponsored by CompuNet**
1:15pm – 2:00pm	**Microsoft 365** – Best practices: migration, configuration and security. **- CompuNet**
2:00pm – 2:45pm	**Breaking down barriers to Data Sharing** - Join AWS and the Oregon DHS Office of Reporting, Research, Analytics, and Implementation (ORRAI) to learn how AWS Lake House Architecture is accelerating transformation by leveraging agency and inter-agency program data to provide predictive analytics, workload modeling, and other quantitative and qualitative methods to improve outcomes for Oregon's children and families. - **Amazon Web Services**
2:45pm - 3:15pm	**Break – Sponsored by Zendesk** (refreshments in Exhibit Hall)
3:15pm - 4:00pm	**The Power of Security Led Technology Collaboration in Pandemic Times –** Cybersecurity is a team sport with shared responsibility, embraced by one of Oregon's shining stars of collaboration, the Broadband Users Group (BUG). What started as a shared fiber ring connectivity solution, has evolved into a centralized security model that continues to expand its value and scalability, to the unique band of 18 Portland-metro municipalities and public agencies that comprise the BUG, in their partnership with TIG and Palo Alto Networks. **– Palo Alto Networks**
4:00pm - 5:15pm	**The Art of the Possible** – A two topic session first on Emerging Technologies for the Fire Service, how to leverage technology to benefit the fire service and how the fire service should prepare for how this technology might impact their future. This will be followed by "The new era of service delivery: Digital transformation during COVID-19", how digital access to critical information and public services will expand and how fully manage, serverless cloud platforms with embedded AI capabilities can scale to meet agency needs for service delivery while managing cost efficiency. **– Google**
6:00pm - 7:00pm	**Reception - Sponsored by Veeam Software** Members, guests and vendors mingle during a casual social hour prior to dinner.
7:00pm - 9:00pm	**Dinner – Vendors and Registered Guests welcome!**

Thursday, February 17, 2022

7:30am - 8:30am	**Breakfast– Sponsored by Gartner, Inc**
8:30am - 9:15am	**Enterprise Automated Testing in multi-vendor/multi-modular environment** - North Highland will discuss how Enterprise Automated Testing supports an efficient multi-system/multi-vendor landscape and how to implement it. We will discuss a case-study of a successful implementation of Enterprise Automated Testing at New Jersey's State Based Healthcare Exchange. **– North Highland**
9:15am - 10:00am	**PCI: Becoming Compliant in 2022 -** The updated Data Security Standard (DSS) 4.0 is coming soon and there are numerous changes and enhancements that must be

	complied with. Whether you are just beginning with PCI for your organization or have many years of experience, there are many challenges, both old and new that can create roadblocks to compliance. With emerging technologies such as zero-trust architecture ready for implementation, find out how to best use these controls for your organizational goals. The presentation will cover the requirements, trouble areas to be aware of, and how you can utilize specific technology in your compliance effort. **- Structured**
10:00am - 10:30am	**Break – Sponsored by Darktrace**
10:30am - 11:15am	**Modernizing service delivery for better citizen experience** - As states and localities begin to look ahead to the post-pandemic future, government agencies are focused on improving the way they deliver services to the public. Modernizing service delivery—making it easy, responsive and accessible for the public—is a top priority. We'll explore the key to successfully implementing a modern service delivery and the outcomes public sector agencies are seeing as a result of modernization. - **Zendesk**
11:15am - 12:00pm	**Securing hybrid work environments – our new normal** - The pandemic forced us to shift where and how we work. In our next new normal, we must examine how our security architectures need to adapt. Learn how architectures like zero trust SASE can help you retain and expand the visibility and security of your workforce, workplace, and workloads. **– Cerium Networks**
12:00pm - 1:00pm	**Lunch – Sponsored by Amazon Web Services**
1:00pm - 1:45pm	**A ransomware attack review** - A network was infiltrated by bad actors who exfiltrated ~500 GB of data before encrypting the machines with ransomware. Our presentation is a deep-dive case study of what happened, how it happened, how it could have been prevented and how they ultimately recovered. Listen in to gain an understanding of the complex and dynamic nature of the current cybersecurity landscape and how bad actors can take advantage of the smallest vulnerabilities. **– ThinkGard**
1:45pm – 2:45pm	**Business Meeting in Session Room -** *(Members Only)* Elections will be held and a quorum is needed, so please ensure your member organization is in attendance.
2:45pm – 3:00pm	**Break & Raffle – Sponsored by Structured** (refreshments in Exhibit Hall)
3:00pm - 3:45pm	**Cybersecurity Layers - What should you have in your stack? -** In the past four years there has been an explosion of cybersecurity products. Each one promises security, but how do they fit together? This interactive presentation compares typical security stacks from 2017 and now, addresses how ransomware fits into the picture and demonstrates the power of immutable backups. Come away understanding why this space continues to evolve rapidly and what to look for when comparing products. **– ITPartners+**
3:45pm - 5:15pm	**Modern Data Strategy** – How governments can leverage data services to store, share, protect, and visualize data in today's world. **- Microsoft**
6:00pm - 7:00pm	**Members Reception** *(Members and Keynote Speaker Sponsor Only)* Casual peer networking social hour prior to member dinner

7:00pm - 9:00pm	**Member Dinner** *(Members & Friday Sponsors Only)*

Friday, February 18, 2022

7:30am - 8:30am	**Breakfast –** *Sponsored by Palo Alto Networks*
8:30am - 9:15am	**Stopping Ransomware with Autonomous Response** – Join Drew Staudacher, Darktrace's Cybersecurity Sales Team Leader, as he unpacks some of today's most advanced ransomware threats. Learn how Self-Learning AI understands the organization to reveal every stage of a ransomware attack – and takes targeted, autonomous action to stop the threat in its tracks. - **Darktrace**
9:15am – 10:45am	**State of Disruption & Next Generation IT** - The velocity of innovation in technology today is driving an equally rapid evolution of the IT marketplace. Bill Franklin, Cloud and Security Practice Leader for AVANT, will be exploring the trends disrupting IT and the best practices being utilized across industry *as well as some recent projects* to not only keep up but stay one step ahead. **– *Sponsored by TIG***
10:45am - 11:15am	***Break, Closing & Conference Attendee Giveaway - Gift Provided by North Highland*** Stay to the end for your conference attendee Thank You gift, provided this year by our Gift Sponsor, North Highland.
